Here at Classic Furniture we are proud to carry the Restonic Latex line of bedding. Since 1938, Restonic has been providing quality sleep products to help consumers all over the globe. In our Sleep Shoppe we have the largest selection of Restonic Foam beds in Eastern Pa! At Classic Furniture we want to help you make the best decision in a foam mattress so we would like to provide you with the following Foam information pages:

### Latex Foam

Restonic has been making Latex beds for over a decade and is proud to use a USA based manufacturer to supply the Talalay Latex. The Talalay Latex beds have no coils, are extremely durable and body conforming to provide excellent if not the best, pressure-point relief.. Latex foam will "spring-back" vs. Memory Foam which molds to your body. With Latex you have a feel of a coil with minimum pressure points. Restonic Latex beds conform perfectly to your body's contours and evenly supports the spine to provide OPTIMAL ORTHOPEDIC SUPPORT!

### Memory Foam

Restonic HealthRest memory foam mattresses use the latest technical innovations of viscoelastic foam that responds to weight to bring excellent support and comfort. Restonic Memory Foam beds will cradle your back for a great nights sleep! This technology has been around since the early 1990's and continues to be a great option to improve your sleep health.

### Restonic Magnet Bed

Try our NEW Restonic Magnet Therapy Bed. This bed has 15 rows of Medically proven magnets in the top layer which sits on top of a Latex core. Customers not only get the huge benefit of Latex Foam but also receive the main benefits of magnets which help improve circulation, ease stiffness and reduce chronic back pain. Restonic uses the BioFlex Class 1 Medical Magnets which are registered with the FDA as a legitimate medical device.

### Benefits of Restonic Foam beds

These beds will help relieve pressure that causes you to toss and turn at night. The ability of foam to gently support and conform to your body helps alleviate pressure points and dramatically reduces tossing and turning. Foam beds can reduce common pressure areas by as much as 90%, thus ensuring a sound and comfortable sleep. Foam beds are also dust mite resistant and are naturally hypo-allergenic. As a bonus, bacteria and mildew cannot live in Latex. Restonic foam beds are also perfect for allergy sufferers. Independent tests prove that Latex is 3 times more dust mite resistant than ordinary mattresses. Restonic Foam beds also are virtually motion free so if someone in the household tosses and turns you will not notice that activity as much as a conventional coil mattress. And you do not have to flip the foam mattresses!!

We welcome you to visit our Sleep Shoppe for an enjoyable and educational way to purchase a new set of bedding. We are non-commissioned and encourage you to spend as much time as you need to select the perfect mattress. We offer dependable and courteous delivery and free removal of the old bedding. Make sure you check out our 20 Year Water Proof Mattress Pads where you get up to 4 replacement pads throughout the warranty period for just one price!
